DELIVERIES IN THE REAR

AKA

GETTING FAMILY HISTORY INFORMATION THROUGH THE BACK DOOR

Dr. Jean Wilcox Hibben will present the value of using the “back door” in genealogical research. Sometimes the most valuable information is acquired by researching correlating families to one’s direct line ancestry. By using the family information of cousins, aunts, uncles, etc., one can piece together the lives of the entire family unit. Even using information about neighbors and historical events can unearth helpful data in one’s genealogical pursuits.

Dr. Hibben has been involved in family research for over 40 years and has traced her origins to Germany, the Czech Republic, Denmark, Holland, England, and France. She is the former Director of the Corona CA Family History Center, has done background work on two genealogy-focused TV programs, has served on the Board of Directors of the Association of Professional Genealogists, and the Board of the Genealogical Speakers Guild. Currently she serves as the 1st Vice-President and Webmaster of the Corona CA Genealogical Society. She obtained a Bachelor’s and Master’s degrees in Speech Communication and worked as a professor in the field for 13 years. In 2008 she received her Doctorate in Folklore. Her website: circlemending.org. Her goal: helping mend family circles.
